Thursday, September 24, 2020

As of today, NH DHHS has confirmed no new positive COVID-19 cases within our student population. The total active COVID-19 cases within our student body is three (3). Two (2) positive cases at Golden Brook School, and one (1) positive case at Windham Center School. The students who have tested positive for COVID-19 and their close contacts will continue to adhere to the required isolation (for those who are sick) or quarantine (for those who were exposed) time.

All students, parents, and staff should continue to follow the district’s safety protocols https://bit.ly/2ZASIlsd and conduct daily self-checks before leaving the house. If you are not feeling well, symptomatic, or getting tested for COVID-19, please stay home and contact your medical physician for guidance. Please also notify your student’s school if your child will be remote for the day.

For more information on COVID-19 in New Hampshire, please view additional information here: https://www.nh.gov/covid19/resources-guidance/schools.htm. If you have any general questions about COVID-19, please call 2-1-1 for residents of NH or dial 1-866-444-4211.

Today was the first day that our entire student population was able to follow our proposed plan for the 2020-21 school year. Our high school students returned today to the hybrid learning model, and sport tryouts/practices and the CTE program resumed. We have heard from our staff and administrative teams that the overall student response to the district’s safety protocols have been outstanding. However, there is a transitional period of getting used to these new set of norms and standards for everyone. Our staff will continue to guide the students in the proper protocols. We are asking you, as a parent, to continue to support our efforts by reinforcing the importance of social distancing and mask wearing while in school for the safety and well-being of our staff and student body. We want to thank the parents who have reached out to us and made us aware of their observations for areas of improvement. We will continue to remain diligent in our approach to remind all students and staff of the importance of these safety protocols.

We will continue to remain in contact with NH DHHS while they continue their thorough investigation and monitoring of the situation. We will continue to keep the community informed over the days to come.

Thank you,

Richard Langlois
Superintendent of Schools
