Sunday, November 8, 2020

We were notified by NH DHHS over the weekend that we have two (2) new positive COVID-19 cases within our student population. The total active COVID-19 cases within our school community is two (2). One (1) positive case at Golden Brook School, and one (1) positive case at Windham High School. The individuals who have tested positive for COVID-19 and their identified close contacts were contacted and will adhere to the required isolation (for those who are sick) or quarantine (for those who were exposed) time. These cases do not appear to be connected to each other.

Due to the complexity of high school traveling schedules and out of an abundance of caution, we have made the decision to move to a full remote model for all high school students effective Monday, November 9, 2020. This will allow NH DHHS to complete their thorough contact tracing protocols and procedures safely. We will take guidance from NH DHHS and communicate with the community when they suggest our high school students are able to safely return to the hybrid learning model. Golden Brook School, Windham Center School, and Windham Middle School will continue with their current hybrid learning model.

Our communication efforts will remain constant with NH DHHS throughout their investigation and monitoring of the situation. We will keep the community informed of any adjustments or changes in our plan.

Thank you,

Richard Langlois
Superintendent of Schools
